We Are All Ergonomics

Lucy Mara Baú ^{1*}
Eduardo Ferro dos Santos ²

¹ Presidente da ABERGO

² Diretor Secretário da ABERGO

^{1*} E-mail: lucybau@gmail.com

At our Annual General Assembly held on December 11, 2020, in São Paulo, the election of the new ABERGO Board for the 2021-2023 term was ratified. The elected slate was "We Are All Ergonomics," and we present the new members here.

In accordance with the commitments outlined in our work plan, our actions will be guided by strengthening the participation of individual ABERGO members and representing the community as a legitimate intermediary with funding agencies, educational and research institutions, corporations, regulation, and standardization bodies.

In addition to this commitment, we have other challenges arising in our new work formats, such as organizing the CBE – Brazilian Ergonomics Congress, which will now be an annual event. We will initiate the SERERGO – Regional Ergonomics Seminar, continue the ENERGO – Brazilian Ergonomist Certification Forum, promote Scientific Education with the publication of the Action Ergonomics Journal, release compilations of Books and Case Reports in digital format, develop a new, more interactive Home Page for members and society, and undertake other actions aimed at strengthening Brazilian ergonomics in teaching, research, and practice. Together, we will build a stronger ergonomics with respect for individual and collective efforts, fostering collaborative contribution and construction, never forgetting our history.

In this year of 2021, we will work together to minimize the consequences of the Covid-19 pandemic, ensure the health and safety of all, and advance in harmony with technological and sustainable development. We aim to expand the debate around the working class and contribute to business organizations by guaranteeing healthy, safe, and productive work. That is our role.

We hope to have the support of our members who have always been part of ABERGO and those who wish to join, whether returning as a member or as a new member. Our challenge is immense, and we need to be together, seeking the participation of each individual in building this new era, often referred to as the "new normal," which, although still far from normal, already requires us professionals to be increasingly connected and focused on the human being.

We now present the composition of the New Executive Board, in accordance with the ABERGO statute:

Lucy Mara Baú

President

Professor and Coordinator of the Ergonomics Department at Inspirar College. Director of Ocupamed. Master's degree in Production Engineering, Bachelor's degree in Physiotherapy. Specialization in Occupational Physiotherapy and in Higher Education Methodology.

Eduardo Ferro dos Santos

Secretary-General

Professor at the University of São Paulo, at the Lorena School of Engineering. Holds a Master's and Ph.D. in Production Engineering, Bachelor's degrees in Mechatronics Engineering and Physiotherapy. Specialized in Quality and Productivity, as well as in Occupational Safety Engineering..

Rosimeire Sedrez Bitencourt

Treasurer

Professor at PUC Paraná, holds a Master's and Ph.D. in Production Engineering, Bachelor's degree in Computer Science, and Specialization in Informatics.

Nilton Luiz Menegon

1st Substitute

Professor at the Federal University of São Carlos, holds a Master's and Ph.D. in Production Engineering, Bachelor's degree in Mechanical Engineering, and Specialization in Hydraulics.

Antônio Marcio Moreira

2nd Substitute

Director of PRODERG, holds a Master's degree in Ergonomics, Industrial Designer, with specialization in Ergonomics.

During the management, the Executive Board is overseen by the Fiscal Council, composed of:

Paulo Antonio Barros Oliveira

Councilor

Professor at the Federal University of Rio Grande do Sul, Retired Labor Inspector, holds a Master's in Education, Ph.D. in Production Engineering, Bachelor's degree in Medicine, and specialization in Occupational Medicine. He served as President of ABERGO during the terms 2015/2017 and 2018/2020.

Vilma Villarouco

Councilor

Professor at the Federal University of Ceará, holds a Master's and Ph.D. in Production Engineering, and a Bachelor's degree in Architecture and Urbanism.

Márcio Alves Marçal

Councilor

Professor at the Federal University of the Jequitinhonha and Mucuri Valleys, holds a Master's in Ergonomics and a Ph.D. in Occupational Biomechanics, with a Bachelor's degree in Physiotherapy and specialization in Occupational Physiotherapy.

Raoni Rocha Simões

Substitute

Professor at the Federal University of Ouro Preto, holds a Ph.D. in Ergonomics and Work Organization, a Master's in Labor and Society Sciences, and Bachelor's degrees in Physiotherapy and Production Engineering. Specialized in Ergonomics.

José Orlando Gomes

Substitute

Professor at the Federal University of Rio de Janeiro, holds a Master's, Ph.D., and Bachelor's degree in Production Engineering. Vice-President of the International Ergonomics Association. He served as President of ABERGO during the terms 2010/2012 and 2013/2015.

Our Administrative Headquarters remains strong in Rio de Janeiro with our dear secretary.

Valéria Barbosa

Secretary

Secretary of ABERGO, stationed at the ABERGO headquarters.

Continuing the mission since the time of our first president, Itiro Iida, whose administration included illustrious and notable ergonomists like Reinier Rozestraten, the first vice-president, our beloved Anamaria de Moraes as administrative director, Leda Leal Ferreira as financial director, and the late João Bezerra de Menezes as technical director.

Let's move forward; we are all ergonomics.
